

CardLogix Joins ICMA and the Ranks of Leaders in Card Manufacturing

Irvine, September 25, 2008 – CardLogix, a leading manufacturer of smart cards, announced that it has joined the International Card Manufacturers Association (ICMA). ICMA is a global, non-profit association of plastic card manufacturers and personalizers in the plastic card industry, with over 200 members.

“This is an important milestone for CardLogix”, said Bruce Ross, CEO. “With ICMA, CardLogix speaks to industry issues that directly affect our U.S. and worldwide customers”. Ross added that this step is one of many the company is taking as a manufacturing and industry leader. Other achievements include ISO9001 Certification, as well as NIST approvals for FIPS201 and 140-2. ICMA advances the plastic card industry by focusing on quality, technical standards, manufacturing, and security. For more information, please visit www.icma.com.

CardLogix was founded in 1994 and manufactures smart cards and software for the Secure Identity, Healthcare, and Telecom markets. The company’s world class design to delivery capabilities include printing, lamination, embedding, and personalization. CardLogix has shipped millions of cards to over 36 countries around the world.
