

CARDLOGIX ACHIEVES ISO 9001:2008 CERTIFICATION

Irvine, CA – October 11, 2010 – CardLogix, a leading manufacturer of smart cards and software, announced today that it has achieved [ISO 9001:2008 certification](#). This is the fifth year the company has been awarded this certification, which upgraded this year from ISO 9001:2000. This standard governs quality management and is maintained by the International Organization for Standardization (ISO). To maintain its yearly certification, CardLogix follows a comprehensive plan that achieves the highest levels of quality in every aspect of business. This company-wide plan affects manufacturing and other, vital operations, including sales, accounting, and overall customer service. CardLogix received the certification from UL DQS, an auditor approved by the ANSI-ASQ National Accreditation Board (ANAB).

This certification recognizes the ability of CardLogix to consistently monitor key processes and guide continuous improvement in order to satisfy customers through quality products and services.

ISO 9001:2008 requirements include establishing processes, monitoring process effectiveness, controlling records, product conformity, and facilitating continuous improvement.

CardLogix is a leading smart card and software company, enabling people to transact data, value, and daily life more securely and conveniently. CardLogix smart cards can be found in applications for Identity, Healthcare, Gaming, Transportation, and much more. For more information, please contact sales@cardlogix.com.
