# PRINTING YOUR CARDS

CardLogix gives you a wide range of choices for card printing. From full color, Pantone-matched litho processes to on-site issuance with immediate fulfillment via desktop printers and couplers, we have you covered.

Numerous card printing and packaging options are available to distinguish the look of your system. Options range from simple enhancements to sophisticated security features. Special packaging and shipment choices are also available. Our factory card personalization with a wide range of adjustable options can streamline your distribution and fulfillment tasks. See the CardLogix Graphics and Security Printing Guide for more information.

# PROMOTING YOUR SYSTEM

Building the best system ever made doesn't matter if your users don't know about it or how to use it. Educate and excite your customers with the extra touch that makes programs successful. CardLogix offers an array of packaging options from blister packs to card wallets to help in your project promotion. We can sleeve, shrink wrap, mark and ship cards to specified distribution points to save you the hassle. Call us for more details.
