Automating Fare Collection is essential to managing riders, programs, and profits. By utilizing smart card systems, not only will you speed up fare collection, but you will also be able to take control of your personnel, your fleet, and your bottom line.

With a smart card solution as the cornerstone, automated fare collection is not only faster, but smarter. CardLogix features a range of card-based solutions to fit your needs. Since 1998, CardLogix has delivered solutions that are easy to integrate, use, maintain and expand with your current system.

As a Transportation-Focused manufacturer, we see ourselves as your vital partner in the chain of trust. CardLogix can help you raise the bar on loyalty and system security with:
