

American Identity Solutions

Prompt and Reliable Identity Vetting Services

Vetting is the first line of defense for hiring and managing personnel while protecting their identities and privacy. This process is integral for many applications in need of vetting during identity credential enrollment. American Identity Solutions is a highly reputable source that works within the idblox® ecosystem to provide biometric and commercial vetting services. American Identity Solutions compares biometric data retrieved from Corvus Integration's Micro Booking Station™ with stored FBI data to verify identity upon initial enrollment, and to check these credentials against commercial background inquiries and any history of criminality.

American Identity Solutions is a proven supplier to the U.S. government and other organizations. It is a CJIS authorized provider of Live Scan fingerprint services and a GSA contract holder. Recognized for its track record of excellence and compliance to government rules and regulations, American Identity Solutions has become a leader in vetting services for governments, businesses and individuals.

AIS services are available during the idblox® identity credential vetting process to provide thorough criminal and commercial background checks. They may also be used as a standalone service to serve a variety of independent security needs.

- Outstanding customer service
- Law enforcement investigations
- Forensic services
- National Fingerprint Collection Clearinghouse (NFCC).
- Service Disable Veteran Owned business (SDVOB)
- idblox approved service

Vetting Options:

Type I: Commercial National Records Check for Identity Verification
Type I runs criminal and other searches to reveal non-fingerprinted criminal arrests, and other charges not revealed on a fingerprint FBI CJIS arrest database search. These services are conducted by law enforcement investigators. These records are subject to expungement and public court record expungement.

Type II: Citizen Criminal Inquiry U.S. DOJ D.O. 556-73
This self-requesting service conducts personal FBI fingerprint investigations under the U.S. Department of Justice Department Order for pre-employment, VISA application, and other screening.

Type III: For Government Originating Requesting Identifier ORI Holdings
This service pertains to state and local government organizations using ORI-approved fingerprint submissions. ORI stands for Originating Agency Identifier, and identifies the requesting agency or jurisdiction. An FBI authority agency number is required for this. In some cities and states government employees are processed for free by the U.S. Government.

*Disclaimer - Local State, and Federal Laws vary from each jurisdiction and affect pricing and completion of background checks.
