

STD019

Plastic Stand

To hold your ACS contactless devices at the optimal angle

STD019 is a translucent plastic stand to hold your ACS contactless devices at an optimal angle. End users can now tap their contactless cards with ease for different applications, such as electronic payment, loyalty program, and logical access control.

Applicable devices include ACR122U, ACR1251U, ACR1252U and other ACS contactless products of similar size.
